FOREWORD

This is the forty-fourth in a series of publications giving business population data for Mississippi by industry and by county for firms covered under the Mississippi Employment Security Law. The first release carried data for 1960 and 1961. Beginning with the 1972 issue, publication was shifted to an annual basis. Publications issued prior to 1972 covered two-year periods.

Information of this nature provides an indication of shifts in industrial patterns, showing the kinds of new businesses being established and the kinds which are declining in significance. Knowledge of these shifts, which affect employment opportunities, is necessary for accurate assessment of the economic health of an area and for understanding the workings of the labor market. Such knowledge leads to a more effective administration of the Employment Security Programs and is useful to groups concerned with industrial development in the state.

Beginning with the 2007 edition, the industrial codes used are those contained in the North American Industry Classification System (NAICS) Manual issued by the Executive Office of the President, Office of Management and Budget, 2007. In the 2002 through 2006 editions, the industrial codes used were from the NAICS, 2002 codes. Prior to the 2002 edition, the industrial codes used were from the Standard Industrial Classification (SIC) Manual. Because of extensive changes from SIC to NAICS, there will be no historical comparisons. Information about NAICS can be accessed at census.gov.
